PERSONAL SUMMARY

A passionate and motivated Junior Developer with hands-on experience in web development, UI/UX design, and frontend technologies. Skilled in utilising HTML5, CSS3, JavaScript (ES6+), React.js, and multiple frameworks including Tailwind CSS, Next.js, and Django to create responsive and user-friendly web applications. Demonstrated ability to apply user-centred design principles through wireframing and prototyping using Figma. Familiar with backend integration using Flask and TensorFlow for machine learning projects. Adept at collaborating in cross-functional teams, solving complex problems, and delivering high-quality digital solutions. Recognised for innovation and creativity through multiple awards and certifications, with strong adaptability to new technologies and fast-paced environments.

EDUCATION

March 2022 - September 2024
Universiti Teknologi MARA (UiTM) Jasin, Melaka
CGPA: 3.14 | Bachelor's Degree of Computer Science (Hons.)

- Final Year Project: Facial Emotion Recognition for School Counsellor using Deep Learning

March 2022 - September 2024
Universiti Teknologi MARA (UiTM) Arau, Perlis
CGPA: 3.72 | Diploma in Computer Science

2018
Sekolah Menengah Kebangsaan Alam Megah 2
Sijil Pelajaran Malaysia

EXTRA CO-CURRICULAR

- ICT Development Participants: Preparation, Challenges and Career Opportunities for Graduates,December 2023.
- Participant of Festival Arena Uniti Melaka, October 2023.
- Participant of Recognition of Creative Effort to Invent,August 2023.
- Participant of Largest Participation in Aerobic Dance Circuit (Malaysia Book of Records,October 2021.
- Participant of Program Wacana Semarak Patriotisme,June 2021.
- Participant of Walk Malaysia 10,000 Langkah 2019, September 2019.

SKILLS & HIGHLIGHTS

Languages:

- Malay: Native Speaker.
- English: Good Working Proficiency.

Technical Skills:

- Proficient in web development using HTML5, CSS3, JavaScript (ES6+), with practical experience in React.js, including component-based architecture and hooks.
- Skilled in responsive web design, applying UI/UX principles with tools such as Figma for wireframing, prototyping, and user interface design.
- Experienced in using Tailwind CSS and basic implementation of shadcn/ui components to develop consistent and visually appealing interfaces.
- Capable of version control using Git and GitHub, along with debugging and optimisation through browser developer tools to ensure clean and efficient code.

Interpersonal Skills:

- Strong communication abilities, effectively conveying ideas and collaborating with team members and stakeholders.
- Team-oriented with a positive and proactive mindset, contributing actively to group projects and shared goals.
- Demonstrated problem-solving and critical thinking skills, addressing challenges with practical and creative solutions.
- Quick to learn and adapt to new technologies, workflows, and project requirements in fast-paced environments.
- Reliable and organised, managing time effectively while maintaining attention to detail and meeting deadlines under pressure.

WORKING EXPERIENCE

July 2024 - Current
GFIS Innovative Solutions Sdn Bhd
Junior Developer

- Collaborated on frontend development projects, contributing to the design and implementation of intuitive and user-friendly web application interfaces.
- Supported client application development by ensuring responsive layouts, smooth functionality, and consistent user experiences across devices.
- Applied practical experience in mobile and web design, incorporating user-centred design principles and adopting modern UI/UX methodologies to meet project requirements.
- Produced detailed wireframes and interactive prototypes using Figma, allowing for effective visualisation, feedback, and refinement of design concepts prior to development.
- Enhanced technical proficiency in HTML, CSS, JavaScript, and multiple frameworks and libraries including Next.js, React Bootstrap, Tailwind CSS, Django, React.js, and Leaflet, contributing to efficient and scalable codebases.
- Conducted comprehensive software testing to detect and address UI/UX inconsistencies, ensuring cross-browser compatibility and full responsiveness on both desktop and mobile platforms.
- Edited and produced multimedia content and project videos, supporting digital storytelling efforts and improving the overall presentation of project outcomes.

March 2024 - June 2024
GFIS Innovative Solutions Sdn Bhd
Front-End Developer and Web Designer Intern

- Participated in frontend development projects, designed and optimised web application interfaces to enhance usability, navigation, and overall user satisfaction.
- Assisted in client application development by implementing responsive layouts, ensuring accessibility standards were met, and delivering functional, user-friendly features compatible with various devices and screen sizes.
- Collaborated in the design and development of a detailed mock-up for an Emergency Response App using Figma, creating platform-specific designs for both Android and iOS to support an intuitive and consistent cross-platform experience.

September 2021 - February 2022
Fusionex Group
Software Developer Intern

- Contributed to web development enhancement projects for the Petron Dealer App and Diamond & Platinum Web, focusing on designing and implementing intuitive, responsive interfaces that improved user engagement and streamlined navigation.
- Actively collaborated with cross-functional teams in the development of client applications, providing support to clients across various states and cities in Malaysia, while ensuring consistent functionality, seamless cross-browser performance, and full mobile responsiveness to accommodate a wide range of devices and user needs.

ACHIEVEMENT & CERTIFICATE

- VIRTUAL ASIA INNOVATION SHOW 2023.
- Front End Development Libraries Courses Developer certification.
- Responsive Web Design Developer certification.
- Working with Containers: Introduction to Kubernetes.
- Docker Compose: Terminology & Installation.
- API Development: HTML5 & Hypermedia.
- Bootstrap Environment, Requirements, & Setup.
- Angular 11: Working With Angular Modules.
- CSSLP 2024: Secure Software Concepts.
